

## **Unit I:-Basics of Cryptography in Block chain**

1. Enlist types of cryptography
2. What wallets and digital signatures in Block chain?
3. Explain Cryptographic algorithm in Block chain technology.
4. Explain with example Centralized and decentralized system
5. What are the limitations of centralized system?
6. Which are the Benefits of crypto currency?

## **Unit II: - Introduction to Block chain Technology**

1. Explain in brief History of Block chain.
2. What are the Types of Block Chain?
3. What is the basic mechanism we use in the bit coin .
4. Explain the Crypto wallets: Metamask, Coinbase, Binance.
5. Why we use blockchain technology
6. Explain step by step flow of the block chain technology.
